Information

Frequently asked questions

How can I order and what information is required?

Simply send us an informal e-mail. We need a billing address and the desired model to prepare the offer.

What is the difference between Wheel of Fortune Basic-Grund (80 cm) and Basic (80 cm)?

The wheel of fortune Basic-Grund (80 cm) is slightly design options are slightly limited, as a screw in the middle is used to fix the wheel of fortune disk. wheel of fortune disk is used. The Basic has a mounting from behind. Furthermore, the pins are only available in red on the Basic-Grund.

Is it possible to have fewer or more than 18 fields (12 on the table wheel of fortune)?

Yes, the number of fields is freely selectable. Experience has shown that 8 to 24 fields are the most suitable. Up to 18 fields are included in the price, more are available for an extra charge. For table wheels of fortune, up to 12 fields are included in the price.

What colors are available for the pins?

Black, Red and Silver.

Can I do the design myself?

Yes, you can obtain the required print template from us and the print specifications can be found under „Print data specifications“ on page 53.

Do you have design templates?

Yes, we will be happy to send you the appropriate design template once we have accepted your offer.

Does the print release (approval for printing) have to be issued in writing?

Yes, we need the print approval (good for printing) in writing. An informal e-mail is sufficient.

Does printing cost extra?

No. The printing costs are included in the price. However costs for data check and correction proofs if you do not choose a standard layout.

Is the TSA certificate required?

No. However, it may be helpful to obtain a permit if you wish to use the wheel of fortune in public areas (e.g. exhibition grounds).

When will I receive the wheel of fortune?

Within Germany, the delivery time from print approval is normally approx. 7 working days (Mon. - Fri.). Outside of Germany 8 - 10 working days. The delivery time may vary depending on the order situation. Further information can be found under „Delivery times“ on page 51 and on our website:

www.gluecksradschop.com/gluecksrad-lieferzeit

Order process

Would you like to order a wheel of fortune from us?
Then you have the following options:

Informal order by e-mail

Please send us an informal e-mail with your order to: info@komventus.de

Please remember that we need the following information to process your application quickly:

- Billing address
- Delivery address (if different from the billing address - please include contact person and telephone number)
- Desired wheel of fortune model
- Possible accessories (e.g. the transport bag or the TSA certificate)
- Print data or your design requirements (if you have any queries, a member of staff will contact you)

Order via our online store

Order your wheel of fortune conveniently via our website: www.gluecksradsshop.com

You would like an offer or would like be advised?

If you are still undecided, would like a quote or need individual advice, please write to us or give us a call. We will be happy to help you.

Once we have received your order or quotation request, you will receive an order confirmation or a suitable quotation from us on the same day.

After accepting the offer, you will receive a design template from us on request or we will design your desired layout in consultation with you.

For our customers from abroad, we only produce the wheel of fortune after receipt of payment or a payment advice.

If you are satisfied with our design draft design, please give us your print approval by e-mail, so that we can start production. We will only go into production once we have received your written print approval. A print approval by telephone is not sufficient!

The finished product will then be sent to you as agreed in the order.

Production and delivery times

Production time

After print approval, our standard lucky wheels of fortune have a production time of approx. 3 - 5 days (Mon. - Fri.). For orders from abroad, your wheel of fortune will not go into production until payment has been received. To shorten this process, you are welcome to send us a payment advice. For complex models (e.g. Magnet Premium) the production time will be slightly longer.

Delivery times

Shipping within Germany is carried out by General Overnight (GO!) as standard for our stand models. Delivery by GO! usually takes place between 09:00 and 12:00. On the day of dispatch, you will receive an e-mail from GO! confirming delivery and an additional dispatch confirmation from us (incl. invoice in PDF format).

We generally ship our table wheels of fortune with DHL. This extends the delivery time by a further 2 days. On request, we can also ship your table wheel of fortunes with GO!

Shipping outside Germany is carried out by FedEx as standard. Wheels of fortune with a diameter of more than 90 cm exceed the permitted package size and are delivered by a forwarding agent. The delivery time and shipping costs for this vary depending on the scope of delivery and delivery address.

Shipping within Germany - GO! <i>Standing wheels of fortune</i>	1 - 2 Workdays
Shipping within Germany - DHL <i>Table wheels of fortune</i>	2 - 4 Workdays
Shipping within the EU - FedEx	2 - 4 Workdays
Shipping without the EU - FedEx	3 - 5 Workdays

Please note that the delivery time may be delayed by the shipping service provider itself.

Wheel of fortune assembly instructions for standing wheels

Please read the entire instructions for use carefully before use and keep them in a safe place.

Warnings

The wheel of fortune may no longer be used in strong winds and must be dismantled. The water weight must be used for outdoor use (see step 3).

Step 1:

Remove the tripod from the inside pocket of the carrying bag. If you have the option of placing the bag on a storage surface, it is easier to remove or pack the two components.

Step 2:

If the lower knurled screw is tightened, you must first loosen it. You can then spread the legs of the tripod. The distance between two legs should be set to 100 cm to ensure a secure stand.

After you have set up the tripod with the legs, please tighten the lower knurled screw again by hand to prevent the legs from moving unintentionally.

Step 3:

For outdoor use, you must place two water weights, each filled with 10 liters of water, over the tripod and place them on the tripod legs to ensure a secure stand. (This step can be skipped for indoor use).

The water weights do not release you from your duty of supervision!

Step 4:

Remove the wheel of fortune disk including the retaining rod from the bag. Insert the lower end of the retaining rod (open end) into the stand and insert the locking pin, which is attached to the upper knurled screw on the stand, at a suitable point (depending on the desired height of the wheel of fortune). This prevents the rod from slipping further into the stand. To secure the rod against slipping out, tighten the upper knurled screw hand-tight.

Step 5:

The wheel of fortune is now fully assembled and ready for use!

Information zur Gestaltung

Data check

All data supplied is checked by us before printing. Please note that we only check the data for print production. We accept no liability for errors in content (e.g. spelling mistakes). If we determine that a file is not suitable for printing, we will inform you immediately.

Proof (good for printing)

After your print file has been checked by our graphics department, you will receive a proof for print approval. We will not produce your wheel of fortune until you have approved it by e-mail.

New design

After a detailed layout discussion, we will create a first draft based on your data. If you have any minor customization requests, we will of course be happy to adapt them. However, further drafts are only possible for an additional charge. If you are satisfied with the design, we will send you a final proof for written approval by e-mail.

Templates & specifications

We will also be happy to provide you with the appropriate design template and our detailed data sheet on the design specifications after accepting your offer. Just ask us!

Print data specifications

Data transfer

You can send us your data by e-mail up to a maximum file size of 10 MB. Larger amounts of data can be sent to us on data carriers such as CDs, DVDs, USB sticks or via the WeTransfer file hosting service.

File formats

To achieve optimum printing results, we require files in the following formats: [.pdf](#), [.ai](#), [.eps](#), [.tif](#)

Since the conversion of other formats often leads to layout and color deviations, we ask you to use only the formats listed above.

Media formats / page layout

Always create files at a scale of 1:1. If the data deviates from the 1:1 format, please let us know. In order to achieve optimum print quality the resolution (for pixel graphics) should be at least 300 dpi.

For vector graphics, always convert all text elements into curves/paths or include the fonts used in the file. Images must also be embedded or sent along.

Color mode

Set the color space to CMYK. Solid colors / profiles such as HKS, Pantone or RAL are converted and therefore not always 100% achieved. spot colors (such as gold) are not possible.

Bleed

Please do not apply any bleed marks, register marks or color control strips.
